Services offered in NYC, Hudson Valley, and Nassau County

West Farms Center

A Bronx Hub of Education, Creativity, and Inspiration

Day Habilitation Program, Vocational Supports, Photo Club, Pottery Kiln, Article 16 Services, and an On-site Health Clinic

Unique Programs for People with I/DD

What We Do:

The West Farms Center is a LEED-Gold certified setting providing supports for over 200 people with I/DD throughout The Bronx each year, alongside clinical services for the local community.

Daily Experiences That Enrich and Educate:

Each day, people we support achieve a fulfilling life through varied learning, mobility, movement, therapies, vocational options, and more, all provided with loving dedication from our caring team.

Over in the Horticulture Room, attendees grow a variety of produce for a local hospitality company. For a break, persons supported head to the rooftop terrace for time in the sun and to safely gather for activities. There is even a space for companion animals and support pets.

The West Farms Photo Club

is a celebrated group of photographers with I/DD learning about the medium and sharing their vision through the camera lens.

CP's Grab N Go Cafe

is a needed space where the community can find breakfast and lunch options. Staffed by people supported by the Agency, the daily interactions help develop their money management and vocational talents.

CP's Pottery Kiln

is the only one like it for people with intellectual and developmental disabilities in the NYC-metro area. Participants build dexterity while learning, building social skills and expressing themselves artistically.
