# Bronx Supports for People with Disabilities

Inspiring Education,  
Independence, and Imagination

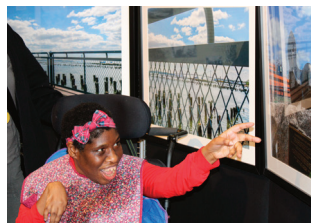

## West Farms Center: Vocational Supports, Photo Club, Pottery Kiln, Article 16 Services, and an On-site Health Clinic

West Farms Center is a LEED-Gold certified setting providing supports for over 200 people with I/DD throughout The Bronx each year, alongside clinical services for the local community.

Each day, people we support achieve a fulfilling life through varied learning, mobility, movement, therapies, vocational options, and more, all provided with loving dedication from our caring team.

### The West Farms Photo Club

is a celebrated group of photographers with I/DD learning about the medium and sharing their vision through the camera lens.

### CP's Grab N Go Cafe

is a needed space where the community can find breakfast and lunch options. Staffed by people supported by the Agency, the daily interactions help develop their money management and vocational talents.

### CP's Pottery Kiln

is the only one like it for people with intellectual and developmental disabilities in the NYC-metro area. Participants build dexterity while learning, building social skills and expressing themselves artistically.

## Inclusive Residential Settings Throughout The Bronx and Yonkers

Across the borough, and newly opened in Yonkers, CP Unlimited offers caring and welcoming residential settings for people with disabilities.

For people who need all day care, as well as others who require less intensive support, the Agency provides accessible, enriching, safe, and comfortable homes that take the needs of every individual into account.

CP Unlimited also operates CP Transport to facilitate drop off and pick up at the West Farms Day Habilitation program, medical appointments, and other borough locations.
